A LOVED WOMAN FIRST IN HOME, HAND AND HEART

Mrs. Virginia Summers Cloud, daughter of the late Dr. Thomas Summers, of Bath county, for many years a citizen of this city, with her last earthly home in Lexington, entered on rest on Tuesday the 13th inst at the ripe age of 79 years, after a lingering illness from which life ebbed and went out as a consumed candle, the rare flowers that blanketed the remains were as emblems of the pure life of this good woman. Mrs. Cloud's going removes the last of the Summers family, but memories of her and her's will linger in the minds and the hearts of those who have loved her best. She was the wife of John J. Cloud, deceased, and a member of the Mt. Sterling Baptist church, consistent in life and faith. She is survived by two daughters, Mrs. Mary P. Warley and Miss Betsy Cloud, of Lexington. Remains were taken to Georgetown and after funeral services at the grave, conducted by Dr. J. W. Porter, of the First Baptist church at Lexington, remains were consigned to the earth in Georgetown Cemetery by the side of her loved one there to await the coming of her Lord. Mrs. Margaret Guthrie Thompson and Miss Elizabeth attended the funeral.

NEW INSURANCE FIRM TO OPERATE IN FRANKFORT

McCoun and Jeffers, a recently formed partnership, will take over the general insurance and surety bond business of C. W. Hay, February 1, and in addition will conduct a real estate and life insurance agency.

T. B. McCoun, who served through the late war as a captain in the aviation corps, winning distinction while in service in France, and Walter Jeffers, master commissioner of Franklin county and lawyer, are the members of the new firm. Their offices will be in the McClure Building.

The above from the Kentucky State Journal will be of interest to Mr. McCoun's friends here, who will wish him the greatest success in his new venture.

1,500 CATTLE ON MARKET

Trading Was Slow and Prices Were Cheaper Than Last Court. Good Run of Mules

(By W. E. Bean)

After two weeks of mean weather, Monday was a beautiful day, warm, sunshiny, and delightful. There were 1,500 head of cattle on hand, mostly thin, small stuff, very few high class steers. During the forenoon there was no business at all. I never saw anything like it before. There were no local buyers and the foreign buyers held off until afternoon in order to get lower prices, and they succeeded with many lots, buying them fully \$1 per hundred, lower than December Court, but the best grades sold about the same, that is, from 10 to 11 cents per pound, but common grades were druggy, even at the reduced prices, and most of them sold by the head from 7 to 8 cents. Cows, 6 to 7c; canners, 4 to 5c; 800-lb steers at 10c; 900-lb at 11 cents. There were several yokes of work oxen sold. Glenn Keith sold three yokes at \$700, steers weighing about 1,000 pounds each. Same party sold two very fine 800-lb steers at 11 cents.

The few sales that were weighed gave trend of sales.

Mr. Rupert sold 20 steers, 700 lbs., at 9 cents.

Pard Heaton, 18 500-lb. heifers at 8 cents.

Wm. Davis, 11 475-lb. steers at 7 cents.

Chas. Goff bought 7 700-lb steers and bulls at 7 cents.

O. B. Turley 15 700-lb steers at 9 cents.

Mr. Coulter, from Indiana, 36 600-lb. steers at 8 1-2 cents.

Mr. Prewitt, 7 steers, 500-lbs., at 8 cents.

Same party, 7 400-lb. steers at 7 cents.

Sam Heaton, 10 460-lb. steers at 10 cents.

Same party 11 400-lb. steers at 8 1-2 cents.

MULES

The mule market was very brisk for high class mules at good prices. Medium and common ones were slow. February Court will be the time for that sort when farmers are hunting teams to work. Elam and Lacy sold 11 mules from \$115 to \$175. Each sold one pair at \$500 and another very fine pair at \$700.

Another party sold 6 mules for \$740.

There were several pairs and some single mares, one-half draft stock sold by Mr. Watson, of Iowa. One sorrel mare, \$135; 4-year-old black mare, \$170; pair of bay mares, \$107; two black mares, \$370; 5-year-old bay mare, \$180. All these were gentle work uares, sound and in fine shape. The high prices for tobacco gives the tenant plenty of money and they like good stock, which is much more sensible than buying autos and wasting their money.

MAN OF HONOR AND RIPE IN YEARS PASSES

Col. Frank Mathews, a former citizen of this county, aged 84 years, passed away at the home of his daughter, Mrs. Edwin G. Bedford, Oklahoma City, Okla., on Tuesday, the 13th. His remains were brought here by his grandson, Edward M. Bedford after funeral services in Oklahoma City, conducted by the pastor of the Presbyterian church, and buried by the side of his loved ones in Municipal Cemetery. He is survived by two daughters, children of his second wife.

Col. Mathews was a son of one of the most eminent Presbyterian ministers of his day, a leader among educators and pastor of a leading Presbyterian church in Louisville.

He was a graduate of the memorable 1855 class at Danville College and was a linguist of note. He was a soldier of the Confederacy and bore the rank of Colonel. He was twice married.

Colonel Mathews was loved and honored by a legion of friends, and whether a shepherd herding his flocks in the west, a citizen every ready to sympathize and help, a husband and father kind and indulgent, or a christian faithful to his confession, Colonel Mathews was the same in all his walks as true to his convictions of justice as the needle is to the lole.

SEASON'S SALES THREE MILLION

Much Tobacco is Being Brought In By the Farmers, But Warehouses Are Holding Their Own

The farmers are bringing in their tobacco faster and in greater quantities than at any time since the market opened on the local brakes, but the three big warehouses, with their splendidly organized forces, are taking care of it nicely. The better grades are continuing to bring as good prices here as on any of the markets, but much of the tobacco sold here this season is of inferior quality, owing to the unseasonable weather during the summer months.

The sales up to Saturday and their averages are as follows:

Farmers, 1,395,780 pounds, averaging \$40.07.

Whitehall, 1,136,235 pounds, averaging \$38.83.

Robertson's, 444,140 pounds, averaging \$37.17.

Total number of pounds sold on the local market this season is 2,976,155 pounds, not including the big sale at the Farmers yesterday or at the Whitehall today, on which we were unable to get the figures at time of going to press.

DECLARES DIVIDEND

The H. H. Pieper Co. has declared another eight per cent. dividend, which will be good news to the many local stockholders and goes to prove the merit of this rapidly growing concern. This company is offering 100 shares of its capital stock at \$60 per share and after this is sold no more will be put on the market at less than \$75.00. The money derived from the stock now being sold is to be used for further development and the opening of new stores. The H. H. Pieper Co. is growing rapidly and it is thought the stock will readily be subscribed for.

EDWARD SHINNICK, EDITOR DIES OF HEART DISEASE

Edward Shinnick, editor of Shelby Record, for more than 30 years, succumbs to heart trouble at his home in Shelby county after an illness of four months. He was an editor of talents and fully discharged his duties from a conscientious viewpoint. He was 65 years old and is survived by his wife and four sons. We have known editor Shinnick from early manhood and it is our pleasure to testify as to his honesty, gifts and versatile attainments. He had been a member of the Press Association for many years and served as president one term. He served as secretary of the Board of Control under the Stanley administration. He was active in politics and thoroughly imbued with every interest which had for its object improvements for the publishing staff. His passing is a grievous loss to the brotherhood. Our sympathy goes out for the bereft.

DEATH OF JOHN DAUGHERTY

Judge John A. Daugherty, aged 75 years, an ex-Confederate soldier, member of John Morgan's command, died of pneumonia on the thirteenth. Judge Daugherty was formerly Judge of the Bath County Court and made a very acceptable official. He is survived by his wife, two daughters, Mrs. Espie Goodpaster, of Owingsville, and Mrs. Lillian Moss, of Nicholasville, and one son, Thomas D. Daugherty, of Flemingsburg.

Judge Daugherty was a model citizen, a member of the Christian church

Insurance and Nothing but Insurance

Starts Ball Rolling

When war was first declared and our boys mustered into the service they were automatically covered, for a period of three months, by the War Risk Insurance; those entering later not being given this protection unless applied for. The injustice of this was called to the attention of the Hon. Jouett Shouse, Assistant Secretary of the Treasury, when he was here last June by Mr. H. G. Hoffman, the General Agent of the Pacific Mutual Life Insurance Co., of California, in this city. Mr. Shouse readily seeing it, as presented by Mr. Hoffman, and shortly after his return to Washington a bill was introduced to give this, and which bill, we are pleased to note, has just passed the House unanimously. There were one or two Montgomery county boys who died, or were killed during the war who had not been given the opportunity to secure this protection and if now their families are afforded this benefit and payment it will be largely through Mr. Hoffman's suggestion and efforts, thus broadening the service which he has always accorded his own clients and the War Risk Insurance business which he has handled during the past three or four years.—Gazette, September 17th, 1919.

TREASURY DEPARTMENT

Washington, January 15th, 1920

Mr. H. G. Hoffman,
Mt. Sterling, Ky.

My dear Mr. Hoffman:

Replying to your letter of January 13th, I have had a thorough investigation made in the Bureau of War Risk Insurance in case of C116964.

As this boy was in the service before November 11th, 1918, according to the provisions of the Sweet Bill, approved by the President, December 24th, 1919, his estate is entitled to \$25 per month, payable to his mother in two hundred and forty installments.

Proper forms for making application for automatic insurance were sent on January 3rd. Upon receipt of these properly executed, the Bureau of War Risk Insurance will immediately adjudicate this case.

Assuring you that every attention will be given this claim in order to expedite payment, I am,

(Signed)

Sincerely yours,

JOUETT SHOUSE,

Assistant Secretary

This case was "passed up" by attorneys who were consulted. The law said that it was not a valid claim, although the authorities recognized it as one of justice.

The law was changed and the claim, as stated in Mr. Shouse's letter, will be paid.

Regardless of what company (or government insurance) it is a pleasure to us to have you consult us regarding ANY insurance matter and the best of advice will be cheerfully given—without charge.

This is the only General Agency office in Eastern Kentucky.

All claims adjusted and paid from HERE.

All premium payments made HERE; change of beneficiary, loans, assignments, etc., all attended to HERE, without the delay of having to wait for papers to be sent other Home Offices.

It will be a pleasure to serve YOU.

THIS OFFICE IS ENDORSED BY THE GOVERNOR, SECRETARY OF STATE, INSURANCE COMMISSIONER, THREE EX-JUDGES, KENTUCKY COURT OF APPEALS, AND PRACTICALLY EVERY BANKER, ATTORNEY AND PHYSICIAN, AS WELL AS A LARGE PERCENTAGE OF THE BUSINESS MEN OF MONTGOMERY COUNTY

PROCLAMATION

No greater problem can engage our serious attention than that of conserving the boy life of our State and Nation; and there has never been a time in our history when the need of this conservation was more apparent than it is today. Therefore, I, Edwin P. Morrow, Governor of the State of Kentucky, in the hope of arousing the men of the State to a sense of their responsibility toward their own boys and the boys of their community, and in the further hope of strengthening the ties that ought to bind fathers and sons together in good fellowship, do issue this proclamation, and I request that the week from February 16th to 22nd be set apart as Father and Son week.

I earnestly urge that such special observances as have been planned by the churches, the Y. M. C. A., and other organizations may receive the patriotic support of all of our citizens.

In Testimony Whereof, I have hereunto subscribed my name and caused the Great Seal of the State of Kentucky to be affixed in the City of Frankfort, this 22nd day of December, in the year of our Lord, one thousand nine hundred and nineteen.

(Signed) Edwin P. Morrow, Governor.

Why Is a Headache?

Various Causes for This Common Affliction

Anemia or Bloodlessness a Very Common Cause

Pepto-Mangan Overcomes Anemia and Tends to Prevent Headaches

When one has an occasional headache it is usually due to some transient or passing cause, such as indigestion, eye-strain, over-tiredness, etc. When, however, one suffers from frequent periodic headaches there is always some special reason for it. Among the most common of such reasons is Anemia or Bloodlessness. This condition is especially frequent among girls and young women and those whose occupations or habits of life keep them too much indoors. The one important necessity in such cases is to build up the quantity and quality of the weak and watery blood. Gude's Pepto-Mangan is exceptionally valuable for this purpose. It increases the number and improves the quality of the red blood cells, those vital little bodies which carry nutrition to all parts of the body. It improves the appetite, imparts color to the face and restores health and strength to the body generally. After a short course of Pepto-Mangan the headaches decrease in frequency and severity and finally disappear, if they are due to Anemia. Pepto-Mangan may be had either in liquid or tablet form, as preferred. When buying Pepto-Mangan be sure to name "Gude's" is on the package. Without "Gude's" it is not Pepto-Mangan.

Bourbon County Farm

at Public Auction on

Friday, January 23, at 10:30 A.M.

We, as agents for Russell Boardman, will sell at public auction on the premises on the Oldson pike two miles from NORTH MIDDLE-TOWN, and about ten miles from MT. STERLING, his farm of 81 1-2 acres.

25 acres of this farm is in OLD BLUE GRASS SOD and is fine TOBACCO LAND. The remainder of the farm is good deep soil well cared for, and in a high state of cultivation. The farm is well fenced and watered.

It has upon it a practically new frame cottage of five rooms, 6-acre tobacco barn, good stock barn and all necessary outbuildings in good repair.

This farm is an exceptional money maker, lays well and on a good pike. The reason for selling Mr. Boardman has bought another farm and will move to it March 1st. Sale positive and terms easy, and will be announced at the sale.

For further information apply to

COLD STORAGE PIRATES

Every thinking person knows that cold storage warehouses are a modern necessity in order to insure a proper distribution of food and prevent enormous wastage from decay.

But well informed people also know that such is not the principal use to which they are now being placed.

They are the means by which food pirates rob and plunder the people. Stores are cornered on the market, hid away in the cold storage warehouses, and allowed to remain there until a fictitious price has been created by an apparent shortage. Then they are dribbled out and enormous profits are made therefrom.

Things run along smoothly for the pirates in this manner, until some enterprising newspaper noses out the facts and begins to stir up the natives. Then some public official comes to life, lets out a few terrifying roars at nothing, and goes home and takes a stiff drink—if he can find it.

He has performed his sacred duty to the goats who elected him. He roared and a roar makes a big noise. Prosecute the pirates? Piffle! They are prominent people, and have money—also votes.

Often food is kept in cold storage until it is rotten and then it is sent out for people to eat and spread disease.

In their frantic efforts to boost prices, eggs are held in storage until they rattle in their shells like dry bones, and apparently the longer they remain the higher is the price when they do break bounds.

We Americans have a queer way of doing things in the present day of enlightenment.

If a poor devil steals a slab of bacon to feed his hungry family we enl him a thief and send him to rot in jail.

But when food pirates milk the public of millions by their criminal manipulation of the cold storage warehouses we envy them in their greatness and leave them to keep right on plundering.

In other words, we eurb the little thief and give the big one a free rein.

Some of the large cities of this country are rotten to their cores, and if the cores were required to stand alone they would collapse of their own decay. For it is in the cities that this wholesale piracy and plundering of the people finds its inception and protection.

Some of the country districts may not be exactly sprouting wings, but the systematic robbery which is debauching the country does not flourish where every man knows his neighbor.

The public has reached the point where it is beginning to demand that Congress take adequate measures to relieve the situation—and, failing

this, it would be quite appropriate for it to resign and go home.

The lid has a disagreeable habit of blowing off when the pressure becomes too great.

Clemeneau is to be made president of France as a reward for his work in the war. Lloyd-George, however, can hardly expect our English cousins to make him their king, and Mr. Lausung, it appears, is not gluing his eyes to our presidency.

We appear to enjoy the rare distinction of being the only people on earth who can put the finishing touches to a war and then cannot make peace after it is done.

Unique Belgian Sport.

Sand-bait racing is a sport enjoyed by Belgians and visitors along the sand dunes of La Panne. The boats are so named because they are sailed on the shore. A small frame is spread on four wheels and on the cross bars of the frame is set a good sized must and sail. This wheeled craft is guided by a rope, as boys steer a bob sledge or a small wheel. In a good breeze the boats make 15 to 20 miles an hour. The sand sailor can tack or turn his craft around just as easily as if he were sailing on water.

Crocodile's Record Swim.

How far can a crocodile swim? Perhaps it would be more practical to ask how far crocodiles do swim? J. Stanley Gardiner claims the record for a crocodile (Crocodilus porosus) that recently landed in the Fiji Islands, where he took its photograph. No crocodiles of this species inhabit the Fiji Islands, and the nearest spot where they are known to live is the New Hebrides, 638 miles distant. Therefore, this crocodile must have swam 638 miles in the open sea.

RAIN OR SHINE

This beautiful boundary of choice farming land is well located and practically level, yet slightly rolling, with the exception of about four acres at the springs, but all of the farm can be tilled or farmed, and not a one-half acre of waste land on same, free of stone. Machinery can be run over any and all of the farm. On this farm are five everlasting springs of the very best water, one close to the house and barn, from which a hydraulic ram forces the water to the house and is as handy as city water works. Two of these springs are only a few feet apart and are known as the Twin Springs. Splendid young orchard of 60 or 55 apple trees, all bearing—pear, plum and other fruit of different kinds. Beautiful grove of maple and different kinds of trees in the yard. Also a row of young maple trees on each side of the driveway from the pike to the home and buildings. FARM well fenced into seven or eight fields with page and barbed wire fence. About 45 acres open or ready for next season's crop, balance in timothy and blue grass.

CROPS—10 acres was in tobacco last year and is now sowed to wheat, making 31 bushels to the acre, and is a timothy meadow and will be for this year's hay. There is 30 acres ready for tobacco the coming season. On this farm there has been raised as high as 85 bushels of corn, 25 or 30 bushels of oats and an average of as high as 37 bushels to the acre of wheat. 1917 crop (6 acres) of tobacco only lacked ten dollars of bringing \$2,000.00. 1918 crop (10 acres) of tobacco sold for \$3,000.00. 1919 crop of tobacco has not been stripped yet, or sold, but will make ten or twelve thousand pounds of choice tobacco.

LAND extra good rich soil and will grow any kind of crops that will grow in the State of Kentucky. FARM BUILDINGS consist of a two-story frame dwelling, with 12 rooms, two halls and staircase, parlor, living room, dining room, kitchen, with water at sink, rear hall and storage room and room for bath. Four grates for coal with tile and concrete hearths, house on stone foundation and with a shingle roof. This modern home elegantly finished and papered throughout, costing over \$6,000. Also a tenant house of three rooms in good repair. Barn, one of the best in the county, only been built a short time and practically new. On solid foundation, main frame 6x8-in. yellow pine, with pine shiplap siding and shingle roof. Size, 52x80 ft. There is 12 finished box stalls, driveway clear through same, with rolling doors, barn all fixed for tobacco and hay. Costing over \$3,000 to build it, today it would cost that for the lumber alone. Outbuildings consist of a buggy or garage building, 16x20 ft, with corn crib, 8x20 ft. Smokehouse, two moveable hog houses and henhouse.

AN IDEAL COUNTRY HOME

Two miles to store, three-quarters to the Christian church, two miles to school, three and one-half miles to loading station, Preston, Ky., on the C. & O. Rwy., where all the trains stop to unload passengers and freight for Owingsville, Ky., three and one-half miles to Howard's Mill.

TRACT NO. 1—Consists of 80 2-5 acres and includes all the springs and farm buildings, and fronts on the pike.

TRACT NO. 2—Consists of 60 acres, more or less, without any buildings, and fronts on the pike. Look over this farm and be a bidder on same.

THESE TWO TRACTS will be sold separately, and then as a whole

TERMS

....OF....

Fine Clark County Farm

As Administrators Under the Will of the late W. D. Thomson, We Will Offer for Sale

On the Premises at 10 O'clock A. M. on Friday, Jan. 30, 1920

the home farm of the late W. D. Thomson, containing 543 72-100 acres. This farm is in Clark County and is located about 6 miles from Mt. Sterling, about 10 miles from Winchester and 3 miles from Thomson's Station on the Chesapeake & Ohio Railroad. It lies on both sides of the Wade's Mill and Sewell's Shop turnpike. This land has been subdivided into five different tracts, each of said tracts having a large frontage on the Wade's Mill and Sewell's Shop turnpike, and each tract makes a fine farm in itself.

TRACT NO. 1—Contains 106 421-100 acres. This tract lies well, has a large frontage on the pike, affords a splendid building site, is mostly in blue grass and has on it a large amount of fine tobacco and hemp land, and is well watered.

TRACT NO. 2—Contains 176 15-100 acres. It has a large pike frontage. Improvements consist of a nine-room, two-story frame residence with two halls, large front and back porch, good cistern, smoke house, ice house, 2 buggy houses, stock barn, good orchard and other improvements. A portion of this land is in grass and the balance in a fine state of cultivation. This tract, with its improvements, makes a most desirable home.

TRACT NO. 3—Contains 86 42-100 acres. It has a large pike frontage, affords a splendid building site, is well watered and most of this land is in blue grass.

TRACT NO. 4—Contains 94 537-1000 acres, has a large pike frontage, lies well and has on it a splendid building site. A portion of this land is in blue grass and the balance is in a high state of cultivation.

TRACT NO. 5—Contains 80 192-1000 acres. It has a large pike frontage, and has on it a brick residence of four rooms and kitchen, a stock barn and other outbuildings. It is practically all in blue grass, and is watered by never-failing springs.

ADMINISTRATORS

SOOTHING DISCOURSE.

"Charley, dear," said young Mrs. Torkins, "won't you please go on explaining the League of Nations to me?"

"Why, I've talked by the hour on that every night for the last week."

"Yes. And just as soon as you begin baby stops fretting and drops off to sleep."

Don't worship the Dollar, brethren; but bear in mind that it is a good old pal and loyal to those who use it well.

BUSILY OCCUPIED.

"Are your farmhands keeping busy?"

"Yes," replied Farmer Cornstossel.

"I don't see how they stand it. Besides doing some work on the farm they hold meetings lasting eight and ten hours a day deciding on whether they are doing too much work."

When a man says he is letting his wife keep boarders, he means that he is letting boarders keep his wife.

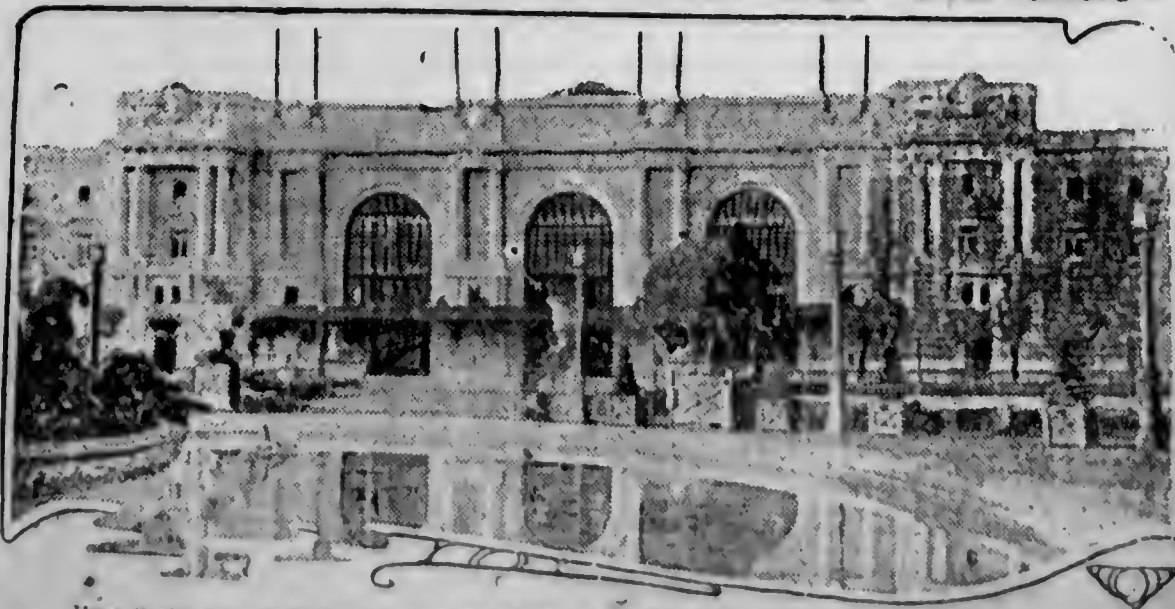

Johnnie's Big Discovery.

Johnnie stopped in his frolic to watch the maid stretch his sweater, which had shrunk in washing. Returning to his play, he found his pet kitten at full length on the floor, apparently bigger than ever before. "I've found out how kittens grow to be big cats," he triumphantly called: "they stretch themselves."

Pa's Little Failing.

Pa isn't exactly a hypocrite, but he is willing for the children and all visitors in the house to think he has read all the books he has in the house.

BLIGHT HARD ON CHESTNUTS

Disease Bids Fair to Wipe Out Completely Both the Tree and Fruit in Maryland.

According to the announcement of State Forester Besley of Maryland chestnuts will be scarce this year, and he also predicts that the chestnut tree and its fruit will some day be but a memory.

In the vicinity of Baltimore the chestnut crop is negligible. The fine groves that once were found in this section of the country have all but disappeared, following the ravages of the blight, and, according to the state forester, this will eventually be the fate of the chestnut wherever it grows. There is no remedy for the strange disease. The only hope is the mountain regions of the western part of the state. The blight is spreading all too rapidly in that direction, but as yet the region west of Hagerstown is still in pretty good condition, according to Mr. Besley. He reports, however, that the blight was discovered by him this season in Garret county. It is said to be a product of China and is supposed to have been imported to this country on some specimens of Chinese chestnuts which were planted in the vicinity of Long Island. State and national experts have worked on the problem unceasingly.

WORK THAT REQUIRES NERVE

"Halibutter" Must Take All Kinds of Chances in His Quest of the Big Fish.

One of the most fearless fishermen is the "halibutter," who often fares up the north Pacific into the shadow of the arctic to harvest old banks or search for new ones, says Popular Mechanics. The life of the halibut fisherman is one of chance and hardship. No voyage is too long and no passage too hazardous, although he travels in what many might regard as a toy ship.

The halibutters are a sturdy lot, the captains usually members of the old seafaring school. The lure, the "pot end of the rainbow," holds the halibutter to the sea. He cannot resist the daily thrills and fascination of the game of death.

The cruise may extend from three weeks to three months. The boats are worked by shares—one-third to the boat, two-thirds to the crew of from six to eighteen. It is not uncommon to return with 90,000 to 125,000 pounds of halibut. This brings from 12 to 18 cents a pound at the docks, netting the owner of the boat about \$6,000, and each member of the crew approximately \$1,000.

RADIUM SUPPLY STILL SMALL

Despite Discoveries in England and Portugal There Is Little of Precious Metal Available.

Radium had been obtained almost wholly from mines in Bohemia, but a few years ago deposits were found in Cornwall, England, and in Portugal, near Guarda in the bed of a stream. The Cornwall pitchblend from which radium is extracted is said to be particularly rich in metal, 500 milligrams being extracted. Outside the Cornwall yield there were about 5,500 milligrams in existence not long ago. A new process extracts the metal quicker and more cheaply. Prior to 1910 radium was something like \$3,000,000 an ounce, but subsequent discoveries have reduced the price about one-third. It is one of the heaviest known metals, having the atomic weight of 226.1 as compared with 207 for lead. The possibilities of this metal in the production of light, heat and power are too vast to estimate, and it may have a most important use in medicine. The usual commercial product known as radium is really one of its salts, usually the bromide, but Mme. Curie and E. Debierne isolated pure radium.

IMMENSE STEAM TURBINE.

The largest steam turbine ever built, developing 100,000-horse power, has been installed in a street railway power house at New York city. It is also the first three-cylinder cross-compound unit in America. Superheated steam at 205 pounds pressure enters the high-pressure element and exhausts into the two low-pressure elements in parallel, condensing at 29-inch vacuum. At full load, the unit takes 826,000 pounds of steam an hour. All the elements, which, in an emergency, can be used independently, run at 1,500 r.p.m., driving 25-cycle three phase generators of 20,000 kilowatts each, at 11,000 volts. The three generators combined have a two-hour overload capacity of 70,000 kilowatts. The installation occupies a floor space 52 by 50 feet.

TO THOSE WHO WOULD BUY LAND

TO THOSE WHO WOULD SELL LAND

TO THOSE WHO WOULD TRADE EITHER WAY

Are you interested? Well, then, read this advertisement carefully, and digest the facts contained therein. This is a message, clear cut, and direct to you, Mr. Purchaser—Yes, and to you, Mr. Seller.

Beginning January 14, 1920, the firm of King & Johnson engaged in the business of Realty in all of its lines. The members of this firm need no introduction to Montgomery. Mr. A. Sidney Johnson is a life long citizen of the county—and as a salesman and advertiser, Mr. King is well known. In the conduct of the business of Realty our aims shall be as follows:

A SQUARE DEAL FOR ALL CONCERNED—

No secret understandings—No rebates.

No deals which can't stand the light.

No two prices.

PROMPT AND EFFICIENT SERVICE—

No delays—No putoffs—No dilatory tactics.

ADVERTISING AND PUBLICITY—

Shall be full, complete and extensive. No stinting of funds as regards publicity. No niggardly policy in the use of the daily press. Our advertising shall reach the fellow in the foothills, down the hollows, back on the dirt road, up in the mountains, and on the macadamized model pike. No prospective buyer can escape our advertising program.

ATTENDANCE AT SALES—

Through the most judicious advertising a large and representative attendance will be guaranteed for each sale. Care in the selection of dates will be observed so as not to come in direct dating conflict with nearby competitive sales or other advertised features or events of local character.

AUCTIONEER—

The auctioneering will be done by a man of dominant personality, a natural born salesman, a forceful speaker, and one who knows the people and their wants.

Want to Feel Just Right?

— Take an NR Tonight —

JUST TRY IT AND SEE how much better you feel in the morning. That "Toggy," headache, tired, don't-know-what's-the-matter feeling will be gone—you'll feel fine.

TROUBLE IS, your system is clogged with a lot of impurities that your over-worked digestive and eliminative organs can't get rid of. Pills, oil, salts, calomel and ordinary laxatives, cathartics and purges only force the bowels and prod the liver.

Nature's Remedy (NR Tablets) acts on the stomach, liver, bowels and even kidneys, not forcing, but toning and strengthening these organs. The result is prompt relief and rest, lasting benefit. Make the test. Nature's Remedy will act promptly, thoroughly, yet so mildly, so gently, that you will think nature herself has come to the rescue and is doing the work.

And oh, what a relief! You'll be surprised to find how much better you feel—brighter, better every way. If habitually or stubbornly constipated, take one NR Tablet each night for a week. Then you'll not have to take medicine every day. Just an occasional NR Tablet after that will be sufficient to keep your system in good condition—keep you feeling your best.

BOOST YOUR TOWN

An ideal citizen is one who sees something good in his town and spreads the good news abroad that others may benefit therefrom.

Of course, there are other side-effects to the ideal citizen, but the quality of loyalty is one which produces tangible results.

There are three distinct attitudes which a person may assume toward the community which houses and feeds him—to boost, to remain quiet or to knock.

The booster pushes his town along, the quiescent citizen lulls it to sleep,

and the knocker helps to put it out of business.

Which are you?

Perhaps you have never given it a thought. You may not realize yourself which you are—but your neighbors all know. They have you accurately catalogued, according to your deserts.

If you are a booster, they admire you; if you are quiescent they wonder when you will emerge from your slumber, and if you are a knocker, they yearn for the day when you will fold up your tent and silently fade away.

Boost the home town and its citizens will boost you.

Knock it and you knock yourself infinitely more.

SERVICE IS REMEDY FOR INDUSTRIAL CHAOS

An attitude of service is the only remedy for the present industrial chaos. This was the dominant tone of the convention of the American Economic Society at Chicago last week, as reported by Walter J. Matherly, head of the Department of Economics at Georgetown College.

Four great industrial problems confront creative thinkers in 1920, Professor Matherly said. International trade and foreign exchange must be adjusted, industrial democracy must be established, the high cost of living reduced, and the railroad problem solved. These questions were discussed fully by the economists and business men at Chicago.

Foreign moneys are at the lowest rate since the beginning of foreign exchange. The English pound sterling, which in normal times sells for \$4.87, is now worth only \$3.74. The French franc has dropped from 19 cents to 10 cents. The German reichsmark, formerly worth 24 cents, is hardly worth two cents now in United States money. This condition of foreign exchange means that the United States will be forced to accept payment for all exports in foreign goods. It means also that America will have to make all foreign accounts of long duration.

There are three forces to be taken into consideration, the Kentucky economist said in discussing industrial problems. These are dissatisfaction on the part of workers, with the nature of industry, dissatisfaction with the management of industry, and dissatisfaction with the workers' share in industry. Democratic principles must be applied to industry as well as government. Professor Matherly believes, and the absentee owner must be eliminated as far as possible.

There are three remedies, he said, for the high cost of living. An increase in production is the principal remedy. During 1919 production in the United States actually decreased while in other countries it increased. A second remedy is to deflate currency. There is too great an inflation of currency at present, and this brings about speculation. Thrift is the third remedy for the high cost of living.

The railroad problem is perplexing, the Kentuckian declared. The Plum plan is discredited, though it contains many good points. Mr. Glenn E. Plum was present at the convention and made a very sane and effective plea for his own solution of the railroad problem.

Catarhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarhal deafness, and that is by a constitutional remedy. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarhal, which is an inflamed condition of the mucous surface of the Eustachian Tube. Halls' Catarrh Medicine acts through the blood on the mucous surfaces of the system.

The Velvet tin is twice as big as shown here

There's a World of Solid Comfort In the Rich, Red Tin

YES, sir, we mean that same warm red and gold tin that smiles a welcoming "Howdy" to you in every tobacco store. Know what those colors mean?

The red is for the friendly warmth, the mellow cheeriness, that Velvet puts into your old pipe. And the gold is where the Kentucky sunshine, that ripens good old Velvet, has just sort of soaked through.

Remember what Velvet Joe said about it?

"You've met canned meat and canned music. Ever see any tinned sunshine? Well, look into any Velvet tin."

And think this over:

We don't have to hide Velvet's taste or smell with a lot of this, that and the other thing. Because Velvet has *naturally* what pipe smokers want—real simon-pure tobacco taste and fragrance. It's just good, honest Kentucky leaf, made still more friendly and mellow by two years' ageing in wooden hogsheads. Just good tobacco. That's all. But it's mighty near enough for the man who wants a pipeful of tobacco and not a box of bon bons.

The picture of a pipe on the tin needn't keep you from rolling a jim-dandy cigarette with Velvet.

How's the Velvet holding out in your old red tin?

ROCKEFELLER AND OTHERS

For many years it has been customary when news was scarce to take a wallop at John D. If he gave ten thousand to charity, we figured that he would salve his conscience by raising the price of oil.

Whichever way the cat jumped, John D. would land in front of it.

A few years ago the giving of a million to charity would create a national stir. Today it is nothing.

John D. gave a hundred millions to philanthropy Christmas morning, and by night the story was too old for repetition.

But John D. is different from some others. He scatters his money abroad in the hope that it will do some good in the world. The new generation of

A SUGGESTION WORTH WHILE

The citizens of Montgomery county may well be proud of the part played by one of its citizens in having enacted into law that part of the "Sweet Bill," recently passed in Washington and approved by the President last month. The original bill of the War Risk Insurance Bureau gave automatic insurance to our sailors and soldiers, without their even applying for it, for the first 120 days after the passage of the act. Those being inducted into service later were not given this excepting when applied for. The injustice of this, when some of those mustered into service were not even given the opportunity of making application before being killed or dying in the service was brought to the attention of the Assistant Secretary of the Treasury, the Hon. Jouett Shouse, when he was in Mt. Sterling last summer by Mr. M. G. Hoffman, and so plainly set forth that, through Mr. Shouse, the original bill was amended and those of our boys who had failed, during the first few months of army life to make application, have been covered in this recently enacted bill. This is of national importance and will mean hundreds of thousands of dollars to the wives, mothers, fathers and other beneficiaries who otherwise would have been grossly neglected. Would more of our citizens take the same interest and pride in such matters, even though there is no compensation, as in this case, we would all be happier and better and more contented citizens. To Mr. Hoffman, in behalf of Montgomery county, or we might say the United States, we thank you for the interest you took in pushing this important matter.

NO REST

At the last meeting of the City Council the women of the Rest Room asked that body to appropriate for their benefit \$100.00. Councilman H. G. Hoffman moved that this amount be donated and for want of a second the motion failed to come before the Council for action. Any assistance given the Rest Room is appreciated by the good women who are back of this worthy object and our country women who receive as much benefit as others feel very kindly to our citizens, who have made it possible to furnish this, a most needed place of rest. There is as we understand, money sufficient from which to make the donation and we are hopeful that our city fathers will inquire into the good results coming from this place of rest and that they will yet make the appropriation. That these rooms may be kept open a canvass has been made and our people have responded generously, but there is yet need of the city's contribution. We do hope the Council will not go on record as willing to have these rooms abolished for want of a pittance appropriation.

FACTS PRESENTED

From the Post and Mercury, Liverpool, England, we produce an article which carries with it much force and concludes all arguments pro and con concerning questions in England as to the temperance question, and as it is there, under similar conditions it would be in all other sections. The article from facts given by Post and Mercury published in Liverpool, England, are as follows:

The record of convictions for drunkenness stood at 287 per week before the war. It fell to 52 in 1918. Since the removal of war-time restrictions there has been a steady increase in these arrests, which is now around the figure of 119. This is attributed to the extension of hours, unrestricted output of beer, and the revocation of the "no-treating" order.

GOODBYE BROTHER BURTON

If Senator Burton is the good Democrat as he is credited it seems to us he would have talked out in party conferences and would have tried to effect compromises satisfactory to both himself and colleagues. There have been others who have acted as did Senator Burton and in these acts they dug their own political graves.

THE SICK

Mr. John English is a very sick man and his friends have cause for their uneasiness concerning his condition.

We are informed by Mr. S. C. Barnard that his wife, who was operated on in Lexington for a serious trouble, is very much improved and her attending physician thinks it will not be long until she is able to come home.

The injuries sustained by Hon. John W. Williams, of Stanton, were not as serious as reported, and unless some unforeseen trouble develops he will soon be a well man again.

Mike Maher is critically ill at the home of his brother, John Maher, on East Main street.

The condition of Mr. Lucien B. Greene, who has been ill for some weeks past, remains unchanged.

Reports from Col. S. M. Newmeyer who is under treatment in the Jewish Hospital in Louisville, indicate improvement in his condition.

SOCIAL EVENTS

Recital

The violin recital given at the History Club rooms Saturday evening by the pupils of Mr. Georges Vigneti, of the Lexington College of Music, was attended by a large and enthusiastic audience. The numbers were well rendered by the young musicians and in a manner highly creditable to themselves and their instructor. The evening was a rare treat to music lovers of this city. The following beautiful program was given.

Cradle Song, Schumann—Nell Fassett.

Serenade, Schubert—John Walsh. Fantasia on a Theme by Weber, Danclo Nola Highland.

Hungarian Dance No. 6, Brahms—Laura Ray Crooks.

Fantasia on Weber's Freischütz, Danclo—Mary Gatewood.

A Dreaming Song, Schumann; b Invitation to the Dance, Weber—Elizabeth Fogg.

A Concerto No. 7 in A Minor, Rode; b Schon Rosmarin, Kreisler—Evelyn Clifton Prewitt.

Concerto No. 9 in A, DeBeriot—Laura Fogg.

Violin Quartet, Mazas—Nola Highland, Laura Ray Crooks, Mary Gatewood, Evelyn Clifton Prewitt.

Party For Daughter

Mrs. Daniel W. Scott entertained with a beautiful party on Saturday afternoon in honor of her young daughter, Miss Francis Scott. Flowers and plants lent beauty to the house and the games of rook and 500 were enjoyed. The first prize at 500 was a French bouquet, and was won by Miss Mary Stofer; at rook a satin Vanity box by Miss Virginia Clark.

For fewest progressions the prizes were presented to Miss Elizabeth Holliday, of Mt. Sterling, and Miss Martha Butner. A delicious supper was a feature of the party. Mrs. Scott was assisted in entertaining by Mrs. Leroy Land and Mrs. Roy Nelson. The guests were: Misses Mary, Stofer, Virginia Clark, Martha Butner, Elizabeth Holliday, of Mt. Sterling; Lucille Harp, Ruth Botts, Helen Van Derveer, Nancy Combs, Willie Coleman, Reba Estill, Katherine Clarkson, Helen Brower, Lida May Smiley, Roberta Barkley.—Lexington Herald.

Entertains Sewing Circle

Mrs. Tom Greene was hostess to her Sewing Circle Friday afternoon at her home on Holt avenue. Her guests were: Mrs. J. M. Hoffman, Mrs. Richard Winn, Mrs. Garrett Marshall, Mrs. J. W. Hedden, Jr., Mrs. J. C. Gaitskill, Mrs. Shields Gay, Mrs. Harry Ragan, of Danville, Va.; Mrs. Tipton Wilson, Mrs. John Eastin, Miss Ruth Wyatt and Miss Anne Caswell Prewitt.

"500" Party

Mr. and Mrs. Shields Gay entertained their card club last evening at their home on Holt avenue. Five hundred was played until a late hour, and delicious refreshments were served. Their guests were: Mr. and Mrs. Howard B. Turner, Mr. and Mrs. Keller Greene, Mrs. J. W. Hedden, Jr., Mrs. W. R. Tipton, Mr. and Mrs. Tom Greene, Mr. and Mrs. Wm. Carrington and Ralph Greene.

Miss Margaret Hadden was hostess at a delightful dinner party given at her home on High street last Friday night in compliment to her sister, Mrs. Harry Hunt. The table was artistically arranged and the place cards, representing a bride, were very clever. Covers were laid for eight, and a delicious course dinner was served.

RELIGIOUS

W. J. Vaughan, field secretary of the Kentucky Sunday School Association (inter-denominational), will address the people of Mt. Sterling at a union service to be held in the Presbyterian church next Sunday night at 7 o'clock. Mr. Vaughan made a fine impression here a year or so ago, on a similar occasion—and a rare treat in store for those who attend.

NEEDED TO BREAK RECORDS

Dorothy Evidently Had Far to Go If She Intended to Outshine Her Uncle.

A Hoosier newspaper man recently went to visit his brother's family, consisting of the brother, his wife and two tiny daughters. Now, the uncle's typewriter, which he felt necessary to take with him, and his trunk, were two articles in which the two little girls were much interested. And two-year-old Dorothy watched every chance she could get to examine both. Five-year-old Ruth also was attracted to them, but some way or other had great trouble in telling which was which.

One day Dorothy got to the trunk when it was open. So straightway she began to pull from its depth many articles of uncle's wearing apparel. Just as she was most intent in doing this Ruth happened into the room. Horrified she ran to her father and uncle. "Oh, daddy," she began, "Dorothy is getting the most awful things out of uncle's typewriter."

Father grinned. "She surely has to be some getter," he remarked meaningfully to his brother, "if she can manage to get anything worse out of it than you do."—Indianapolis News.

FIT QUOTATION

"Don't show your ignorance by quoting Hamlet as the one who said he'd rather be a dog and bay the moon."

"Well, it is an apt quotation, anyhow, for wasn't Hamlet a great Dane?"

PRESS AGENT'S CRUELTY.

The late Tody Hamilton, famous as a circus press agent, once planned a special performance at the winter headquarters of his show. He arranged to feed beer to the animals in their cages and notified the New York newspapers.

Among the reporters was a bibulous veteran known as "Billy." The night before his assignment he had been engaged in a severe bout with John Barleycorn and the next day felt greatly in need of a pick-me-up. As the keepers, under Hamilton's direction, poured gallons of beer into the receptacles for the animals sniffing at it indifferently, Billy became more and more incensed at the waste.

"I can't stand this any longer, Tody," he exclaimed. "For the love of Mike, haven't you got an empty cage for me?"—Everybody's Magazine.

DANISH RAILWAYS.

The principal railways of Denmark are owned and operated by the government. The length of the government roads is 2,103 kilometers (1,307 miles) and that of the several private roads is 2,067 kilometers (1,284 miles). The private companies operate, for the most part, only the short lines, whereas the government operates the main lines and handles the greater part of the business.

STIMULANTS OF MANY KINDS

Almost All Nations Have a Peculiar Intoxicant to Which They Are Unduly Partial.

The betel nut is chewed by at least 50,000,000; an uncleanly habit which is not likely ever to gain much vogue in this country. The leaves of cocoa are chewed by many millions, to whom our more refined and incomparably more deadly indulgence in their alkaloid cocaine, is unknown or inaccessible. Stramonium, offensive as it is to most of us, is used as an intoxicant by millions. The South Sea Islanders get howling drunk on kava, which is a fiery liquor brewed from a species of pepper. The big red seeds of the goora, more commonly known in this country as kola nuts, are a favorite intoxicant of the African natives. The amanita muscaria, or fly mushroom, which here is a deadly poison and is the cause every year of numerous cases of serious illness and death to those who mistake it for the edible mushroom, is in Siberia and especially in Kamchatka commonly eaten as an intoxicant, without worse results than those which attend the drinking of whisky.

BOYS GIVEN GOOD TRAINING

tallan Youth Taught to Become Self-Dependent to a Degree That Seems Amazing.

One of the strangest cities in the world, composed entirely of little gentlemen, and graced with the most radiant nomenclature—it has been christened, because of its peculiar construction, a "dry Venice"—is Madesimo, Italy. The very names of streets—Generosity, Gayety, Cordiality—breathe the atmosphere of this juvenile Utopia, where all social differences have disappeared beneath the explorer's uniform. Nor is this city such in name only; it has all the departments that go to make up a flourishing municipality, and its youthful citizens are trained in all the civic virtues, plus those sterner qualities that come only from direct contact with nature and the solution of problems as they arise. To the English or American reader comparison with the boy scout program in its original form is inevitable. These youngsters are taught, for example, to go three days honestly without a soldo (we would say a cent) in their pockets; to establish telegraphic communication, to serve as nurses—in short, to become as self-dependent as is consistent with modern progress.

MESS CALL GOT HIM.

The lieutenant was decidedly sleepy and settled down deep in his chair in one of the Indianapolis vaudeville theaters. The summer vaudeville program chugged its weary way onward.

At last the audience was released and soon had left the theater, all except the lieutenant, who was sleeping soundly in the vacant parquet. The leader of the orchestra turned on the cornetist, who played retreat call. Still Morpheus held sway. He blew an Nth power jazz note, still with no effect. Then the cheering notes of mess call sounded forth.

On the first of the culinary "Ta-ta-ta-ra-ra" notes, the weary soldier jumped from the chair, took a look about the theater and proceeded double time to the exit.

WAR AND ROLLER SKATES.

It is a far cry from the world war to a child's roller skates, but according to a fashion expert roller skates of the latest approved model are after the style of British fighting tanks. Novelty always being uppermost in the juvenile heart, it matters not that the new skates are surrounded by tanklike bodies made of light sheet metal.

FEW WILD CREATURES WASH

Elephant Said to Be the Only Animal That Uses Water for the Purpose of Cleanliness.

Elephants are the only animals that deliberately wash themselves in water, according to the Animal World. Female African elephants have been seen to daub their calves with mud and then wash it off, apparently soaping and sluicing their young.

Most naked-skinned animals love to wallow in water or mud and water, and some furred animals also do. Such bathing is enjoyed by the rhinoceros and buffalo, bears, tigers and dogs. But this wallowing is not bathing. Indeed, the animals are sometimes dirtier afterward than before. Some animals, such as cats and mice, do all their bathing by licking. Game birds favor a roll in sand, although some keep their coats sleek without either dry or wet cleaning.

Birds appear to be the chief water washers. Some of them prefer shower baths, such as are possible during rainstorms, and they enter into their bath with great glee. Some delight in dust baths, while some few, like the sparrow, employ both dust and water.

PEDESTRIAN RECORD.

How far can a man travel on his feet in one day? So far as known, a record made in 1882 has never been equaled. In Madison Square Garden, New York, on February 27, 1882, the Englishman, Charles Rowell, starting at midnight, walked and ran 150 miles during that day, or, to be specific, in 22 hours 28 minutes 25 seconds. An extraordinary thing about this record is that it was intended to represent merely the first day in a six days' "go-as-you-please." By Wednesday night he had covered more than half of 700 miles, but on the next day he left the contest. His first day's record remains, however, as a world's distance for 24 hours.

DAILY COLLECTION.

Vic went to church the other day. He boarded a street car and gave the conductor a Mexican coin that he had been carrying about in his pocket for fifteen months.

"I thought I gave him a nickel with the picture of a bull bison on it," recalled Vic, who says when he learned his mistake he told the conductor he was making a collection of souvenir coins.

"So am I," said the conductor and he rang up a fare.—Indianapolis News.

WHAT A WELL-KNOWN KENTUCKY WOMAN SAYS

Frankfort, Ky.—"I consider Dr. Pierce's Favorite Prescription the best tonic a woman can take. I have been going down in health for some time. I was weak and nervous and in poor health generally. Just recently I began taking the 'Favorite Prescription' and the results are very gratifying to me. I am getting stronger and my health has improved in every way."

Advice for Mothers

Covington, Ky.—"For the expectant mother there is no tonic in the world so beneficial as Dr. Pierce's Favorite Prescription. I took this medicine for several months during expectancy and had comparatively no suffering. My baby was strong and healthy and I had no after trouble. I also took Dr. Pierce's Pleasant Pellets to keep my system regulated and I believe that they prevented hemorrhoids for I always had this trouble when I had not taken the 'Pellets'. It is a pleasure to recommend such satisfactory and reliable medicine as Dr. Pierce's and I have no hesitancy in sending my testimonial."

MRS. LYDA OCHS, 128 E. 13th St.

"Weak and Nervous"

Lexington, Ky.—"Dr. Pierce's Favorite Prescription is by far the best medicine for women that I have ever taken. I do not know of a medicine I could recommend for a woman to take as I can this medicine. I have taken it to build me up when run-down and in a nervous state and consider it the best nerve builder and the most lasting of any I ever tried. 'Favorite Prescription' is excellent for women to take during expectancy also during middle life; in fact, it is a perfect woman's medicine and is worthy of any praise I can give it."

MRS. ELLEN FRONK, 608 Breckenridge.

TRAINING LITTLE CITIZENS

"I assert confidently that it is in the power of one American mother to make as many gentlemen as she has sons."—Marion Harland.

My text is the manners of two little children who called upon me, each with her mother. When three-year-old was introduced, she put out her tiny hand and said with a charming smile, "How do you do? My mamma said you liked little girls." "Mamma" opened her bag and out came three-year-old's best beloved doll. In two minutes Three-year-old was playing happily in the bay window, while her mother and I had the long talk that we wanted.

When Four-year-old called and her mother said, "This is my little daughter," she made no response to my greeting, but promptly seized my prettiest sofa pillow, threw it on the floor and trampled over and over its delicate silk and with her dusty sandals. Her mother said nothing, but when she rose to leave she was quite severe with little Four-year-old because she neglected to make the formal courtesy that she had been taught. "Evidently her home training in good manners consists in learning to make that courtesy," said a friend who was present; but I fancied there was something more than that back of the difference between the two children. Of course calls on grown ups are dull matters for small folks, but little Three-year-old had, by the thoughtful word of her mother, been put in a mood to please and be pleased, which is the foundation of pleasure in society. Poor little Four-year-old was "at odds with her environment," and her mother had not said the thoughtful word that might have helped her.

Whatever life may bring to a person, there is one thing certain, he will have to mingle with other people; and good manners, which have their rise in a kindly feeling toward others will be a great help. Of whatever follies kings and queens have been guilty, they have generally realized that much of their popularity must rest upon the impression that their manners make upon people. Long before Queen Victoria could speak plainly, she was taught to make a little bow and say, "Morning, lady," or "Morning, sir," when anyone approached her little carriage. Years later, a sailor lifted her small daughter on board the royal yacht, saying as he set her down, "There you are, my little lady." "I'm a princess," the child retorted. "I'm not a little lady." The watchful mother said, "That is true. Tell the kind sailor that you are not a lady yet, but that you hope to be one some day."

How can children be taught courtesy? The foundation, of course, is to teach them by word and example to feel kindly toward the people around them. Show them the little ways of thoughtfulness by which they can express this kindness of feeling. Teach

them not to save up their good manners for strangers and emphasize this by treating them with the same courtesy that you wish them to manifest. "I like to have the Blanks come to play with my children," said a mother "for they are never rude and rough in their games." I was interested to ask the mother of the Blanks how she had brought this about. "I really believe it is due to our after-supper hour," she replied thoughtfully. "For an hour after supper I do whatever the children choose and as one of them. We read aloud, we go to walk,

A FAMILY MEDICINE

In Her Mother's Home, Says This Georgia Lady, Regarding Black-Draught. Relief From Head-ache, Malaria, Chills, Etc.

Ringgold, Ga.—Mrs. Chas. Gaston, of this place, writes: "I am a user of Theodor's Black-Draught; in fact, it was one of our family medicines. Also in my mother's home, when I was a child. When any of us children complained of headache, usually caused by constipation, she gave us a dose of Black-Draught, which would rectify the trouble. Often in the Spring, we would have malaria and chills, or troubles of this kind, we would take Black-Draught pretty regular until the liver acted well, and we would soon be up and around again. We would not be without it, for it certainly has saved us lots of doctor bills. Just a dose of Black-Draught when not so well saves a lot of days in bed."

Theodor's Black-Draught has been in use for many years in the treatment of stomach, liver and bowel troubles, and the popularity which it now enjoys is proof of its merit.

If your liver is not doing its duty, you will suffer from such disagreeable symptoms as headache, biliousness, constipation, indigestion, etc., and unless something is done, serious trouble may result.

Theodor's Black-Draught has been found a valuable remedy for these troubles. It is purely vegetable, and acts in a prompt and natural way, regulating the liver to its proper functions and cleansing the bowels of impurities. Try it. Insist on Theodor's the original and genuine. B 78

Unusual Value—In Tires for Small Cars

30x3 1/2 Goodyear Double-Cure Fabric, All-Weather Tread \$20.00
30x3 1/2 Goodyear Single-Cure Fabric, Anti-Skid Tread \$17.65

Not only is characteristic Goodyear merit conspicuous in Goodyear Tires for small cars but ordinarily the first cost is found to be not greater than that of other tires; often it is actually less.

The combination of unusual value in first cost and very low final cost, of course, is a result of Goodyear experience, expertness and care employed as insistently in the making of 30x3, 30x3 1/2 and 31x4-inch tires as it is in the construction of the famous Goodyear Cord Tires used on the highest-priced automobiles.

For this reason more cars using these small sizes were factory-equipped last year with Goodyear Tires than with any other kind. Get this unusual tire value to enjoy on your Ford, Chevrolet, Dort, Maxwell, or other small car, at the nearest Goodyear Service Station. Get these tires and Goodyear Heavy Tourist Tubes at this station.

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3 1/2 size in water- \$3.90 proof bag

we make candy, we snowball one another, we play games, sometimes wild, rollicking games, and I do not ask for any special privilege on the ground of being a grown up. But of course the children would not think of "tagging mother" too roughly or making hard snowballs when one might happen to be thrown at her; and they won't quarrel about who shall stir the candy when they know that mother is waiting for her turn. If they practise self-control and courtesy with me, they will be more likely to practice it with others."

The National Kindergarten Association is conducting a series of children's matinees with the co-operation of the National Juvenile Motion Picture League.

Those interested in better pictures for children may obtain all particulars by addressing the league at 381 Fourth avenue, New York City.

And now it is the high cost of girls that is soaring. New York statistics have figured that the average yearly cost of clothing one of the future mothers of man is \$476.50. And, with these figures staring them in the face, mothers may be pardoned if they place them on the bargain counters early in life.

That hundred million dollars John D. gave away Christmas morning is at the rate of one plunk for every person in the United States. Were you plunked?

ANOTHER DANGER AHEAD

The country should look ahead and count the cost.

Otherwise it may look back later and catalogue the disasters.

With the farmers rolling in wealth from years of increasing prosperity, there is grave danger of a slackening up in their efforts at production.

The average farmer could reduce his acreage by one-third and still feel no pinch whatever. And in view of the fact that since the beginning of the war they have been breaking all records, a reaction from fatigue would not be at all surprising.

There is no disguising the fact that a certain amount of foodstuffs must be sent abroad, if we are not to contribute to the starvation of vast numbers of helpless people in Europe.

And if, in the midst of this insistent demand for food from foreign countries, our farmers should conclude that they need a deserved rest and reduce their acreage, disaster would

inevitably follow.

Every one knows that the farmer came nobly to the front in the emergency of war and worked early and late to feed our armies and the world, and no one can deny that he is entitled to a rest.

But can he afford to take it this season?

The call of humanity is as great today as it was two or four years ago, and it will not be materially lessened for some time to come.

Beware of the fellow who insists that he is as good as anybody else. You have his number from his own mouth.

Would You Like to Take an Aeroplane Ride?

The new three-Point Cantilever Spring construction of the Overland "4" creates a riding buoyancy which establishes it as a NEW TYPE OF CAR.

A ride in this car gives one the sensation of gliding through the air as in an aeroplane, yet without any feeling of danger.

Overland "4" is a Quality Car. It's Lightweight assures both low gasoline consumption and high tire mileage.

Service is built into the car and light weight and reliability could not be combined without using the very best of materials.

Users are getting from 25 to 30 miles to the gallon of gas.

If you are contemplating buying a car, you will be doing yourself an injustice if you do not let me demonstrate this car to you first.

The Desert's Silence.

No quality of nature is more absolutely fulfilled than the desert's silence. Even the sea, with all her mystery, fails to keep her secrets as the sifting, sifting sands. And with the cool of the desert nights the heavens are uncovered as nowhere else. The wonderful desert night, when the hot sands turn cool and the heavens are revealed in their perfect glory and rest, the perfect rest of that eternal quiet which succeeds the soul.—R. S. Carroll.

To Have ...

An employee of the Century company was behind the counter one day when a roughly dressed man entered and asked if any stories were wanted. The stranger had the appearance of having just come off an emigrant ship. Anything he cared to leave would be handed to the editors, the clerk told him. The man turned and walked out; the Century company had lost Robert Louis Stevenson.—William W. Ellis worth, "A Golden Age of Authors."

THE KAISER

(By Orman Richardson)

The Kaiser of Germany had a frightful manner,
When he heard our soldiers sing the Star Spangled Banner;
He said to his men, the victory we will win, for onward we go,
But now he realizes that you reap what you sow.

They never ceased to stop in playing their mischievous tricks
Until the old U. S. A. into it did mix;
The Kaiser's firm belief was the victory he had won,
But Uncle Sam declared that the fight had just begun.
Always remember as onward you go,
That the good Book says you reap what you sow.

The Kaiser then declared they'll sing that song or die,
I wouldn't care so much, but it makes me feel so dry;
Even the Crown Prince did rare and rain when our men said long may it wave.
Now listen old man, no matter where you go,
Always remember that you reap what you sow.

The Kaiser always thought the ruler he would be,
But now he's changed his mind, for its the old U. S. A.
He then fled to Holland to forget his troubles you know,
But he now realizes that you reap what you sow.

Home-Made Water Filter.

To make a cheap water filter, take a large garden pot and stop the hole in the bottom by placing a piece of sponge in it. Cover with a few inches of powdered charcoal, fill with water, and let it stand over a pail or tub supported by two or three sticks laid across. The water filtering through the charcoal will be freed from all impurities and will be fit for family use. The charcoal should be changed every three months and the sponge several times a year.

Women claim that their husbands are gallant, and then permit their daughters to wait on their brothers.

Thrift--

Men, is a good companion for sound judgment.

The Suits we advertise today at 1-3 off mean a great saving, as Spring goods are 30 per cent. higher than prices today.

The Overcoats we advertise at 1-3 off mean a great saving, quality compared with that of today. Make styles and finish here, the same as always and always the same.

Look, Compare, compare, before you buy. Show your judgment, your thrift, and business will think well of you.

The Vital Thing That Will Give Old Your Car New Life

"Money Makes the Mare Go"—It's the battery that makes the Car Go.

What is the condition of your battery? Is it an "isser?" Does it make the car go as long and as far as it should? Or don't you know it's condition.

The difference between an "isser" and a "has been" is largely a question of how much care is taken of the battery. It is our business to take care of any batteries, to repair all makes, but our principal business is to see that you get an Eveready—the battery with a written guarantee for one and one-half years.

TOWN GIRLS TO HAVE Y. W. C. A.

Association Maintains 52 Town Secretaries—Wants to Expand Work at Once.

"During the war, girls all over the world had their first lesson in nation wide and world wide thinking," says Miss Mabel Head, director of Town and Country Work for the National Y. W. C. A.

"Girls learned something of the inspiration of working with hundreds and hundreds of other girls, unselfishly and unstintingly, through Red Cross work. Now the Y. W. C. A., through its world wide program of service for women, is planning to expand its work so that girls all over the world, and particularly in smaller communities, will not lose this experience."

"Citizenship forums are being organized for girls in small communities, where girls may come together to learn more about their country and their responsibility to it and, as citizens of the world.

"Reading courses have been planned at National Headquarters in New York so that a girl in any community may carry on a course of study, either by herself or with other girls, on a wide variety of subjects.

"The Y. W. C. A. has at present thirty-nine secretaries doing county work. This means that they travel about from one community to another helping girls to plan out social, recreational, educational and religious activities for themselves and organizing them to carry on these activities. These secretaries work with the county agents of the Department of Agriculture in carrying on home economics work. They help plan pageants, arrange benefits assist the girls in going to Y. W. C. A. summer conferences and help plan all sorts of social good times for the community."

Now get busy on your new income tax. If you have a yearly income of a million dollars you can hand over the tidy little sum of \$603,030.00 to Uncle Sam. The Old Boy is not a bit backward.

The best way to prevent that predicted panic is to keep your money in circulation. Start the good work by shooting another subscription our way.

YANK BOXERS THINK CARPENTIER FALSE ALARM

One of the biggest flaccid farces ever foisted upon the public will result if Georges Carpentier, European champion, is sent against Champion Jack Dempsey, think three American pugilists now in England. The Frenchman will be no match for the rugged Dempsey, one of the boxers expressing the belief that Middleweight Champion Mike O'Dowd could beat Carpentier. These three boxers saw Carpentier in his recent London bout when he beat Beckett in 70 seconds. They are, left to right, Johnny Griffith, Akron (O.) welter; Pal Moore, Memphis featherweight, and Ted Lewis, former-welter champion.

JANUARY CLEARANCE AND PRE-INVENTORY SALE

Started Saturday, January 17th and Closes Saturday, January 31st

Our entire stock will be offered in this Clearance Sale at prices that are positively lower than the wholesale prices today of the same goods. Men of experience in the manufacture of various raw materials, such as Cotton Goods, Silks, etc., tell us that the crest of high prices has not been reached, and with the present high cost of raw materials and labor the next twelve months will see no relief. So with conditions as they are today you can see that it is to your advantage to buy your needs now. We are going to make this sale the biggest in the history of this store if good merchandise and right prices will do it, and we urge you to be here SATURDAY, January 17th, when thousands of dollars' worth of merchandise in all the best goods in every department goes on sale.

Pre-Inventory Sale of all Women's and Misses Ready-to-Wear Apparel

Following our usual custom, we make a clean sweep of all merchandise possible so as to invoice a small stock. No garments may be carried over from one season to another, insuring you at all times of receiving the very newest Dame Fashion may produce. To do this we have lost sight of the cost of garments and have made such reductions in our Ladies' and Misses' Coats, Dresses, Skirts, etc., that will insure the closing out of every garment in this department during this sale. As the selections are good now it will pay you to attend this sale during the opening days before the immense stock is broken.

Clearance Sale of Blankets and Comforts

132 pair Woolnap Blankets in solid grey and all colored Plaid Blankets, 68x80. Sale price \$4.95
72 pair all Wool Glenwood Blankets in solid greys, whites and pretty Plaids, sale price \$9.95
All Comforts Sold at Greatly Reduced Prices

Pre-Inventory and Clearance Sale of Men's, Boys' and Youth's Clothing

We have just received a large delayed shipment of Clothing. These goods were bought for our fall business and owing to circumstances over which the manufacturers had no control, they could not ship them as they promised to do. The shipment comprises all the best things in Men's and Young Men's Suits and Overcoats, and having been contracted for several months ago, the price on them is far below the present market value. These special new Suits and Overcoats, also our entire stock of clothing, have been marked down to make a big clean sweep Clearance Sale. So come and see them now.

The scarcity of merchandise of all kinds and the high prices we are having to pay for goods for our spring business should make this sale a "New Year's Gift" to all who take advantage of the good things we are offering.

Fine Flannel Shirts for Men

Complete line of fine Flannel Shirts for Men at greatly reduced prices.

A Clearance Sale of Shoes

Shoes for Men, Women and Children. It is a well known fact that we handle the very best brands of shoes for Men, Boys and Ladies. Although shoes of all kinds have advanced in price and will be much higher for spring, we are offering our entire stock at reduced prices for this sale. Shoe up now and save money.

Rugs and Carpets at Sale Prices

We have a good assortment, bought before the advance. If you are interested in Rugs, you can save big money by buying during this Clearance Sale.

YOU AND YOUR BOND

"It is rather disappointing to a man who gave up a couple of dollars out of his pay every week for a year to find that he had lost six or seven dollars on his Liberty Bond."

So spoke a small subscriber to one

DR. H. M. WRIGHT
—Dentist—

Office over Geiger's Pharmacy
Hours 9 to 12; 1 to 5
Phones, office 247, Res. 249

of the government war loans. He and his family had decided that they wanted some new parlor furniture. The bond was taken from its hiding place for a shopping expedition. Then it was discovered that the bond was not exchangeable for its face value and that furniture was a good deal higher than it used to be.

"What does that mean?"

"If such a transaction were concluded it would mean two things: a loss in selling the best security in the world when it is below par and

another loss in buying a luxury at the top of the market.

"A still greater loss is possible by exchanging a United States bond, even at par—offered by an accommodating oil stock salesman—for a nice 25 per cent. proposition which drops a little day by day until it finally falls clear through the floor, leaving the beautifully printed stock certificates for purely ornamental purposes.

"Liberty Bonds just now are the worst things in the world—to sell. They are the very best investments to hang on to.

"To those whose first serious attention to securities was given in war time, when the four-minute man stood up in the moving picture theatre or in the shop and appealed to patriots to put their savings behind 'the boys over there,' the fluctuations of government securities are disturbing. But the explanation is simple.

Liberty Bonds are below par now because some holders have needed money quickly. There are instances where the seller was a business man, who was sure that he saw an opportunity in his own line to make several times the interest paid by the government. Under such circumstances it may have been wise to sell his bonds.

"Another class of bond sellers is the big stock operators who have made cleanups in the market during the past 11 months. Stock profits are subject to taxation. Losses on Liberty Bonds sold under par before the first of the year make the tax on these profits smaller or wipe it out

entirely. Many of those who sell in order to show their losses to the tax collector expect to buy back again in January.

"Another class of Liberty Bond sellers is made up of the 'little fellows.' Perhaps their trouble has been the high cost of living. A bond sacrifice has helped to bridge the gap between rising prices and a stationary income. There are also those who sell because they have become infected with the modern fever of 'blowing in' all the money they can get.

"Some persons who are trying to get Liberty Bonds away from the 'little fellows' are telling them that Europe owes the United States about \$10,000,000,000 and that no interest has yet been paid on the loan. But it is inconceivable that the great Allied Nations will or can repudiate their debts. Still, if they shall never pay a dollar, the United States could charge off the entire debt and still meet every obligation. Uncle Sam never has failed to pay, and when he pays, he always pays 100 cents on the dollar. In 1861 the United States sold bonds as low as \$83, but the same securities had jumped to \$118 three years after the war and to \$124 in 1876.

"Stop to think that whenever a Liberty Bond is sold it is bought by some one who is as anxious to buy as the seller is to sell. Who is he?"

"Big investors seem to feel that Liberty Bonds are quite the finest buy in the present market. The United States Treasury thinks so, too, and has snapped up in a year more than \$1,000,000,000 of its own securities. The Treasurer of Massachusetts also

has bought Liberty Bonds. These are real tips from the best sources.

"Nothing short of grim starvation should cause the average person to part with his Liberty Bonds. He could not do better today than to save \$46 and with it buy another \$50 bond. At that low price, the rate of interest is high, and the bond is certain to go up \$4, with excellent prospects of increasing still more in value.

Uncle Dudley."

TO MAKE PAPER FROM STRAW

Rapid Destruction of Canada's Pulpwood Will Lead to That Very Soon, Is the Claim.

That newspaper paper will have to be made from the straw of wheat and other grains in a few years if the destruction of Canadian pulpwood forests continues at its present rate, was the assertion of C. Price-Green of Toronto, industrial commissioner of the Canadian National railways, in Chicago to attend the exposition of chemical industries. The straw, he said, now is largely wasted.

"With only one-fifteenth of the world's population, the United States consumes one-half of the world's production of paper," he said. "At the present rate of consumption and destruction by fire, insects and fungus growths, one is forced to the conclusion that the time is not far distant when a substitute for spruce in the making of newspaper paper will have to be found, and one of the most likely sources of supply is to be found in the vast quantities of straw from the grain-growing areas, which at the present time is being wasted."

"SPEECH" OF DUMB ANIMALS

Writer Tells of Two Instances in Which They Plainly Made Wants Known to Her.

While walking in the street one day an airdeale followed me for a couple of blocks. Then all of a sudden it ran ahead of me and stopped in front of a faucet. It kept on standing there, looking at me. It having occurred to me what was in the dog's mind, I took a pail which was standing nearby, and filled it with water. The dog watched with hungry eyes, and when the pail was full enough, drank eagerly.

Another time, while I was waiting for the car, I noticed a fox terrier standing by an automobile. It came over to me and I spoke to it. It looked so pleadingly into my face that I wondered if anything was the matter. It kept on looking at me so earnestly and worriedly as if to say, "Won't you help me?" Then I discovered that something was wrong with the fastening of its collar, which was hurting its neck. I fixed it and the dog's tail began to wag and its eyes to twinkle happily. When I was done, it ran back to the automobile and lay down contentedly.—**Katherine Hansen**, in Dumb Animals.

WEALTH UNDER NEW YORK.

In richness and variety of mineral wealth the land under New York city is second only to Lance Rock in Norway. The largest garnet on record was found in 1885 at the corner of Seventh avenue and Thirty-fifth street. Aquamarines and other beryls, tourmalines, smoky-quartz crystals, clear-quartz crystals, topazes and opals, all have been found in the ledges along Broadway. But the deposits of precious stones are exasperatingly inaccessible; the tremendous value of New York real estate will probably guard them forever against schemes of would-be miners.

Flatbush—Is your boy learning anything at school?
Bensonhurst—Oh, yes. He's learned the class yell.

"But that can't be very pleasant to hear around home."

"Don't you believe it isn't. Say, when he starts that yell every one of my neighbors' bloomin' chickens does a double-quick out of my garden!"

Y. W. C. A. CAMPAIGN

During the coming week there will be short talks at all the women's organizations in every town in the United States on the subject of the Y. W. C. A., its aims and purposes. The campaign is being conducted through the National Headquarters at New York through the various state associations. Mrs. Ben R. Turner has been appointed chairman for the work in Mt. Sterling and much interest has manifested already. Several agents will be put on by the high school Y. W. C. A. who will also conduct the drive for funds for the National Headquarters. This drive will be the last week in February. It is earnestly hoped that sufficient interest will be aroused in Mt. Sterling to effect an organization here with a club room for girls.

HISTORY CLUB

The Women's History Club held its regular weekly meeting Friday afternoon, under the capable leadership of Mrs. J. M. McNeal. A splendid program was given as follows: "American Painting," Mrs. Stewart McCormick. "Quilts and Coverlets," handiwork of our grandmother's day—Mrs. Howard B. Turner. Current Events.

NEW DEPUTY SHERIFF

Sheriff John G. Roberts has appointed Will E. Jones as deputy sheriff and Mr. Jones qualified on Thursday by taking the oath of office and executing bond. Mr. Jones is one of the most popular young men in the county and has many friends who will be pleased to learn of his appointment.

EXTENSIVE IMPROVEMENT

Ragan-Gay Motor Co. to Make Addition to Their Garage

The Ragan-Gay Motor Co. has just purchased of T. F. Rogers his lot in the rear of the present garage property and as soon as weather permits they will begin the erection of a two-story addition to the present building. The lower part of the garage or first floor is to be used for storage and display rooms. Each customer will be given individual space for their car, which will be occupied only by that customer. The upper floor will be given over to their shop and will contain about as much space as their present garage building. When completed this will be one of the most modern, best equipped and up-to-date garage buildings in the whole country.

COMMISSIONER'S SALES

Master Commissioner Will E. Jones sold yesterday at the Court House door the H. M. Wade farm of 77 acres to Clifton Gillispie at \$180 per acre. This land lies near Bunker Hill. Master Commissioner Jones also sold yesterday the Edmonson property on Winn street to Arch Mason for \$3,425.

WESTERN PETROLEUM OPENS UP HERE

The Western Petroleum Co. has opened up for business here, with J. Rice Wyatt as manager. The company has erected tanks on the railroad at the foot of Bank street. The big truck is now in operation and the Western has entered the field as competitor of the Standard Oil Company for the sale of its products in this section.

PIE SUPPER

There will be a pie supper in the auditorium of the Camargo Consolidated School, from 6:30 until 9:30 P. M. on January 24th. There will be music and a general good time. Everyone invited to come and bring their friends and a pie.

LEAGUE OF CITIZENS ORGANIZE

Miss Edna Annette Beveridge met with representatives of the five federated clubs from Mt. Sterling at the Woman's History Club rooms Monday afternoon. Steps were taken to inaugurate a "League of Women Citizens" for the purpose of studying state and national government, and to prepare the women of our country for their new duties as voting citizens. This league will be non-partisan and non-sectarian. While women belonging to the clubs will be greatly interested in it it will be as necessary and vital to women who are not members of any society, but shortly will have the opportunity to add the weight of their convictions to the operation of the government. Mrs. Mattie F. Howell is temporary chairman of this league. The meetings will be held afternoon Tuesdays in the History Club rooms. The first meeting will be on Tuesday, January 26th, at 2:30 P. M. It is hoped that some of our townsmen will address them occasionally and there will be instruction provided. Men and women are all welcome. The Sunday Lexington Herald contains copies of Miss Mary Serugham's lessons on politics and citizenship for the guidance and information of the women of Kentucky. We hope that league members who get these will bring them to the meetings and preserve them for reference. No dues will be attached to membership. The History Club extends a hearty invitation to the league to use their club rooms. We hope they can have a large number of women and men, who will meet for mutual improvement.

DORIS FARM SOLD

The John T. Doris farm of 55 3/4 acres, near Camargo, was sold yesterday by W. H. Wood, the real estate agent, to Richmond Turley and C. M. Brown, whose farms adjoin the Doris land. The price paid was \$200 per acre.

THRIFT WEEK AT HIGH SCHOOL

Prizes Offered for Best Essays and Pupils Are Showing Much Interest in the Movement

The Hi-Y Club at the City High school is promoting Thrift Week in Mt. Sterling. In addition to the Essay Contest, which will end next Friday, a committee from the Club has posted in conspicuous places in the city large posters which portray most vividly some of the lessons of Thrift which it is hoped, will be practiced in this city and county more than ever before on account of National Thrift Week having been observed.

Next Friday afternoon at half past one o'clock all the students will be assembled in the auditorium and as each winner is announced he will come forward and read his paper and receive the prize. There will be a first and second prize in each class of the high school and no winners will be known until called upon to read their papers.

The contributors to the fund, which made possible this observance of Thrift Week are:

- Mt. Sterling National Bank.
- Montgomery National Bank.
- Traders National Bank.
- H. G. Hoffman, Insurance.
- H. D. King, Insurance and Real Estate.
- The Walsh Co., Clothiers.
- Land & Priest, Druggists.

It is hoped that many of the parents and friends of the school will attend the meeting Friday afternoon and thus encourage the students as well as being benefited by the papers read.

No admission will be charged.

PERSHING'S FLAG GOES TO WELLESLEY COLLEGE

Featuring one of the most impressive events ever witnessed at Wellesley College, Wellesley, Mass., General Pershing's famous four-star flag of red with four white stars aligned through its center, together with his war helmet and the personal battle pennon of the German Emperor, were presented to Wellesley College thru the Azora Society of that institution and a receiving committee from East Wellesley class.

Long before the General returned home from France it was known that the Azora Society at Wellesley College was to have his flag and helmet. His late wife was a member of the Azora and he himself is now an honorary member.

In the receiving line representing the class of 1923 was Miss Elizabeth R. Gay, of 522 East Main street, Lexington, Ky., who in her turn delivered an address of thanks and appreciation.

The presentation was made by Countess De Tidkerke, chairman of the Belgian Purple Cross, now visiting in this country. The Kaiser's personal pennon was given to the Countess by the Emperor personally, who detached it from his automobile at her request.

The above from the Lexington Herald of June 16, will be of much interest here, where Miss Gay is well known and greatly admired. She is the granddaughter of Mrs. James W. Gatewood, of this city.

CROP ESTIMATES

The value to Kentucky farmers of thirteen of their principal crops in 1919 was \$400,751,000, which is \$54,165,000 more than in 1918, or approximately 16 per cent greater than the \$346,586,000 produced in 1918, although the total quantity of production of all these crops in 1919 was about 4 per cent less than in 1918, according to the annual revised estimates for Kentucky issued here by the United States Bureau of Crop Estimates. This valuation includes corn, wheat, oats, rye, barley, potatoes, sweet potatoes, tobacco, hay, sorghum syrup, clover seed, apples and peaches.

The leading crops in value were: Tobacco, \$174,383,000; corn, \$127,875,000; hay, \$39,649,000; wheat, \$25,381,000, and potatoes, \$10,584,000. If apples and peaches be excluded the field crops show approximately 3 per cent decrease in quantity of production under 1918, but the total value of 1919 crops shows an increase of about 16 per cent over 1918, although corn, wheat, rye and barley were less than in 1918.

This increase in value is almost entirely due to increased prices of tobacco, the total of the 1919 tobacco crop being estimated at \$174,383,000, compared to \$123,715,000 in 1918. This is based on an estimated average price of 38.2 cents a pound for all types of tobacco grown in Kentucky. This estimate of the value of the State's tobacco crop may prove too low or too high, depending on the prices at which the remainder of the crop is sold.

Kentucky ranks fourteenth in value of principal crops produced in 1919, compared to seventeenth in 1918 and eighteenth for the average production of principal crops 1913-17, inclusive.

The acreage of wheat sowed in Kentucky last fall was 719,000, compared to 1,057,000 acres sowed in 1918, a decrease of nearly 10 per cent, while the rye acreage was 57,000, compared to 63,000 acres sowed in 1918. The United States acreage of winter wheat sowed last fall was 38,770,000, compared to 50,489,000 acres sowed in 1918, a decrease of 23.2 per cent, while the rye acreage is 5,530,000, compared to 7,232,000 acres sowed in 1918.

Farm wages in Kentucky increased approximately 13 per cent from December 1, 1918, to December 1, 1919.

TRIAL OF THE KAISER

Periodically some story is sprung to the effect that the Kaiser is to be tried, or that he is not to face his accusers, or that Holland will not surrender him to the Allies.

Then the story goes out that the ex-war lord will not submit to the indignity of a trial, and recently we were regaled with gossip to the effect that the imperial has-been is engaged in preparing his defense.

BEN FRANKLIN

This month marks the 241st anniversary of the birth of Benjamin Franklin. And this is a good time to renew the acquaintances with old Ben, who was greater even as a moral philosopher than as a statesman.

In a period of extravagance and spiritual restlessness, Ben Franklin's voice has the welcome and helpful sound of a good parent's voice to a troubled child.

When he was still a young man, Franklin wrote a set of principles whereby to discipline his life. And he kept books on himself, giving himself a black mark whenever he failed to live up to one of his own rules. He aimed to have a clean page every day.

Franklin's personal principles as set forth in his autobiography were: Resolution—Resolved to perform what you ought; perform without fail what you resolve.

Frugality—Make no expense, but to do good to others or yourself.

Waste nothing.

Industry—Lose no time; be always employed in something useful; out of all unnecessary actions.

Sincerity—Use no hurtful deceit; think innocently and justly and, if you speak, speak accordingly.

Justice—Wrong none by doing injuries or omitting the benefits that are your duty.

Moderation—Forebear resenting injuries as much as you think they deserve; avoid extremes.

Tranquility—Be not disturbed at trifles, or at accidents common or unavoidable.

Humility—Imitate Jesus and Socrates.

These make pretty good basic principles for the reconstruction of which so much is said and so little done. There can be solid national reconstruction only on a strong foundation of individual self-discipline and responsibility.—Exchange.

If Franklin were alive today he would be a strong advocate for the Treasury Savings Certificates, War Savings Stamps and Thrift Stamps. He would continue to be actuated by Thrift and Patriotism.

MOVEMENT FOR BETTER PAY FOR TEACHERS WORLD-WIDE

The movement for better pay for teachers, not only in the public schools, but for college professors, is practically world-wide. Many of the leading colleges of America have taken it up and the legislature of the States are studying the problem. "Teachers are asking for a salary, not commensurate with the value of their service—America is not rich enough to pay them that," says Newton Marshall Hall, "but large enough on which to live, not penuriously nor luxuriously, but in accordance with the dignity of their high calling."

Extravagance rots character; train youth away from it. On the other hand, the habit of saving money, while it stiffens the will, also brightens the energies. If you would be sure that you are beginning right, begin to save.—Theodore Roosevelt.

\$2.50 PRIZE OFFERED FOR THE BEST "JINGLE"

Can you write a jingle? "Of course, anyone can," you say. Then here's your chance to prove your ability. Take your pencil in hand—put on your thinking cap and get busy—you may win a nice prize.

H. G. Hoffman, the live-wire insurance man, offers a \$2.50 Eversharp Pencil to the person sending in the best jingle on "Life Insurance" on or before next Monday night, January 20th. The jingles must not be over

ten lines in length and must tell of the benefits of life insurance. Anyone is eligible to compete—you may send in as many jingles as you like. If you don't happen to be lucky enough to win the prize, perhaps your jingles may be published just the same.

Two sample jingles on insurance appear in the classified columns today—look them over and see if you can write a better jingle. Here's an evening's entertainment for the whole family—who's the best jingle writer

in your family? Remember to send them in before next Monday night and address them to the "Jingle Editor" care of The Advocate.

Paste this on the walls of your thinking: There's always somebody left in every community that knows a lot of mean things about the forefathers of anybody that's likely to get uppish.

After a man has been married about 20 years he discovers that the only time that he ever fooled his wife was the day he married her.

As a matter of fairness, we contend that the man who steals another's wife, should take her away.

When love and sympathy leaves the soul, true beauty soon leaves the countenance.

PROMINENT FARMER DIES IN BATH COUNTY

James Crooks, aged 84 years, died Wednesday at the home of his son, Judge Alfred N. Crooks, at Owingsville, following an illness of many months. Mr. Crooks was widely connected in this section and was well known over the state. He was a Confederate veteran and a life-long Democrat. Funeral services were held by Rev. Tyler Davis Friday morning at 9 o'clock at Judge Crooks' residence in Owingsville. Burial took place in the Springfield burial ground. Mr. Crooks is survived by four daughters and three sons, Mrs. Price Calk and Mrs. O. M. Jones, of this county; Mrs. H. A. Paynter, of Vanceburg, and Mrs. F. A. Heath, of Pineville; Judge A. N. Crooks, Sam and Robert Crooks, of Owingsville.

Catch Millionaire Draft Dodger.

The "millionaire draft dodger" has been caught, proving again that Uncle Sam never quits when he starts after a man. He is Grover C. Bergdoll of Philadelphia, who is said to be worth millions in his own right. He was caught at his home last week, when federal officers surprised in raid. The mother, shown climbing into the "Black Helay" on the way to police station, shot a federal officer before being disarmed. Bergdoll evaded officers for two years.

make good cooks happy, and poor cooks ambitious, because they are absolutely reliable, and when the cook has done her part, they never disappoint her with poor baking. There are many patented devices for saving time, labor and fuel which have made the Princess a favorite with thousands of housewives during the past 25 years. One of these devices is the one-piece construction of body and top rim, which means that the Princess will continue to give good service as long as it lasts, because there are no joints to widen out and let in cold air to weaken the draft and cool the oven.

ANOTHER FAMILY JAR

All the world knows that General Pershing and General Wood have about as much love for each other as an alley cat for a bull pup.

And yet each, it seems, would not be averse to becoming president of the United States and the commander-in-chief of the other.

When Wood and Pershing meet they bow elaborately and palaver politely and then duck their separate ways as quickly as possible.

Each has his friends and admirers, but to the public in general it is some-

what amusing.

But family jars, you know, are always the source of much amusement—to all except the family.

Our great and distinguished generals, finding no other fields to conquer, will now proceed to devour each other.

Louis Levy, \$11,200; C. H. J. Hausmann, \$8,830; Joseph Mole, \$8,790; Joseph H. McLaughlin, \$8,500; Michael H. Fallon, \$7,735; Albert B. Hines, \$7,675; Henry Wibbing, \$7,665.

All of the winners assembled at the Postoffice at Eighteenth street and Clark avenue at 1 P. M. Wednesday, January 7, and received the prizes from the hands of Mr. Wilson, who addressed them and thanked them for the splendid service performed.

The carriers entered on the contest last May, after the offer of the prizes was made by Mr. Wilson, and the campaign was carried on under the personal direction of Postmaster Colin M. Selph.

Postmaster Selph, in a letter to Mr. Wilson, said that the ten who made the next best sales after the twelve prize winners were also worthy of special mention. They, with the amounts of their sales, are as follows:

David Knibb, \$7,290; Andrew Kittenback, \$6,355; Henry Eilersieck, \$6,440; Charles E. Roth, \$5,830; Charles A. ockey, \$5,615; George Weule, \$5,410; C. A. Raines, \$5,320; J. D. Gibbons, \$5,310; Fred J. Brasse, \$4,980; Leonard B. Wagstaff, \$4,885.

The sales for 1919 did not equal the sales for 1918, but the campaign did not start so early, and during the first few months of the selling season there was not the activity displayed that there was during the closing months.

Postmaster Selph says the St. Louis office in 1920 will endeavor to break the record made in 1918.

Too much cannot be done for the promotion of thrift. It ought to be urged upon the young in the home, in the school, everywhere. Thrift as a necessity, as a duty, ought to be insisted upon for everybody in every place of public discussion. Want of frugality, the unlimited extravagance of the time, is a public menace, and any movement that will tend to check it deserves the highest commendation.—G. W. Clark, Governor of Iowa.

FAVOR LEAGUE BY THREE TO ONE VOTE

An overwhelming sentiment for the ratification of the peace treaty with the League of Nations covenant unreserved was registered by the faculty and students of Georgetown College in a ballot Tuesday morning.

One hundred and seventy-three students out of a total of 252 who voted, and seventeen professors out of a total of twenty-three who cast votes were in favor of the treaty in its entirety.

The balloting followed a ten-days' period of discussion of the question by students and professors in chapel exercises, lecture periods and debating societies.

Three students voted against the treaty entirely, eleven voted for the ratification with the Lodge reservations, and fifty eight favored the ratification with any reservations that would make peace with Germany and leave the question of the League of Nations to be settled later.

Seventeen professors voted for reserved ratification and six for compromise ratification.

Great Things Planned For Famous Old Transylvania

College of Bible and Hamilton College Included in Kentucky Disciples' Forward Step to Enlarge the Equipment of these Noted Institutions of Learning at Lexington

For the maintenance of its rightful place, so long occupied among America's leading educational institutions, historic Transylvania, Lexington, Ky., is to make with the Disciples of Christ of the State, and its thousands of friends throughout the country, in a vigorous campaign for an imperative enlargement of its equipment and for an adequate compensation of its faculty.

Transylvania, the Pioneer College of the West, 1785.

The College of the Bible, for the training of men and women for the ministry and mission field, and Hamilton College, the Junior College for Women, will share in this campaign, which is to be conducted as a part of the Interchurch World Movement.

Up to the time of the starting of the Interchurch World Movement financial drive, Transylvania and its friends will conduct a campaign of education, in order that the urgent needs of these institutions may be so well understood that every one will be glad of the opportunity of sharing in their support.

One of the first needs of the institution is a fire-proof building to house its priceless

library, worth more than a hundred thousand dollars, and which if destroyed by fire could not be replaced. Another aim is the increase of the salaries of the professors to a living standard, making it possible to hold its present faculty, and to command the very best available material for increasing its teaching force. Another aim is the continuance of the progressive policies so long maintained by this historic college.

Many other first rank colleges throughout the country have already taken steps to avert a crisis in educational affairs. With the increased cost of everything, it is absolutely impossible for institutions of learning to exist on the basis of former support.

There is also a widespread conviction of the necessity of the maintenance of the college under distinctive Christian influences. An investigation made a few years ago revealed these significant facts:

Eighteen of the twenty-six recognized masters in American Letters were college men; seventeen of the eighteen were from Christian colleges. Of the members of Congress in 1905 who had received a college education, and whose professional achievements gave them a place in "Who's Who in America," two-thirds were graduates of church colleges.

Transylvania and the College of the Bible have educated one president, two vice-presidents, the president of the Southern Confederacy; also secretaries of state, treasury, post master-general, attorney general; scores of United States senators and congressmen; a Speaker of the House; ministers to many foreign countries; governors of a large number of states; mayors of large cities; authors of national and international reputation; physicians and surgeons of world-wide fame, and thousands of ministers and missionaries of the Christian religion.

Dr. Richard H. Collins, the historian of Kentucky, characterizes its graduates "as statesmen, jurists, orators, surgeons and divines among the greatest in the world's history—men of mark in all the professions and callings of life."

TRYING TO BOOST PAY

Employees of the government look to this man to get them larger salaries to meet the increased cost of living. He is Luther C. Steward, president of the National Federation of Federal Employees, the organization having 154 local unions in every state in the union.

SWEET REVENGE IN STORE FOR LANDLORDS' VICTIMS

Through the collection of taxes on 1919 incomes, the first step in which will be taken, the government will wage war on profiteering landlords with "sweet revenge" in prospect for "the tenant who has had to dig deep into his earnings to pay a high rental in 1919."

First intimation of this new aspect came tonight in announcement by D. C. Roper, Commissioner of the Bureau of Internal Revenue, that forms for making income tax returns, which will be in the hands of all internal revenue collectors and ready for distribution this week, will contain a section providing that tenants shall include in their statements the amounts of rents paid and to whom it was paid. This information will be turned over to the Department of Justice to be used in its high cost of living campaign.

"The tenants are doing the driving and holding the whip," Mr. Roper said.

"Profiteer landlords will be held to the straight and narrow path in the payment of their income taxes. Revenge is sweet to the tenant who has had to dig deep into his earnings to pay a high rental in 1919. Gathering his family around him, he takes his scratchy pen in hand, and with the last drop of ink in the bottle informs the Commissioner of Internal Revenue that he, Bill Brown, of the Hall Room Apartments, paid to John Smith, 13 Profiteer avenue, \$1,200 for his three-room flat in 1919.

"By gathering these reports from all of the Bill Browns who are running themselves ragged to pay the rent, the Internal Revenue Bureau will have all the information needed to see that the profiteer, John Smith, pays proper tax or face prosecution."

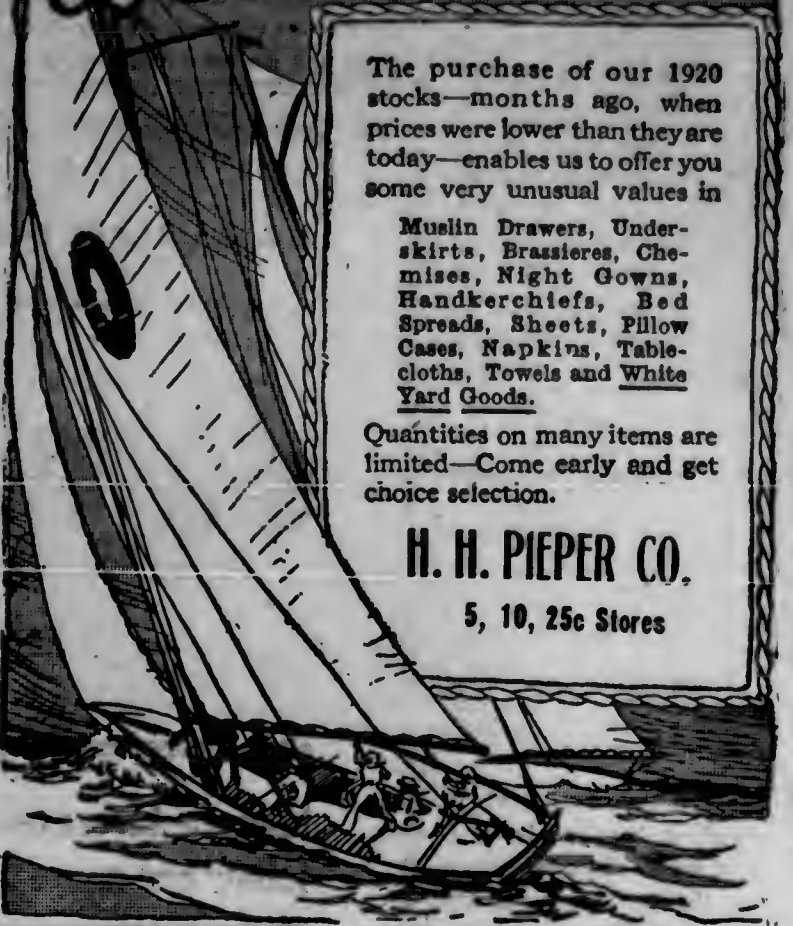

While the work of collecting the income taxes will be just as heavy this year as it was in 1919, the government will receive less revenue. Instead of collecting 6 per cent. on incomes between \$2,000 and \$4,000 from married persons, as was done last year, only 4 per cent. will be collected this time. Single persons will get an exemption of \$1,000, as was provided under the previous revenue law. On incomes above \$4,000 the normal tax will be 8 per cent. instead of 12 per cent. as last year. But the surtax begins operations at \$4,000, and continues upward until the government will assess 60 per cent. of annual incomes above \$1,000,000.

Internal revenue officials will send income tax forms to all persons who paid taxes last year. Others who are taxable must apply to the collectors for them. Mr. Roper warned there would be unswerving enforcement of the revenue laws and that "punishment will be meted out and penalties applied without fear or favor" this year, since all persons should be familiar with the law by this time. The commissioner said he would not appeal to the public to pay taxes on grounds of patriotism except insofar as tax payment constitutes a duty to the nation.

Returns, and at least one-fourth of the amount due must be in the hands of internal revenue collectors by March 15.

TRANSLYVANIA COLLEGE IS NOT CONDUCTED FOR PROFIT

There are very few American colleges that make any profit out of their students. That is especially true of the small colleges. But for their endowment they would have to raise their tuition fees to such an extent as to make the cost of an education prohibitive to many poor, but ambitious men and women now working their way through college. It is true of Transylvania College at Lexington, where the poor boy or girl may obtain a classical education as cheaply as anywhere in the United States, and pay for it with their own work besides. Figures recently compiled show that seventy-five per cent. of Transylvania's students are paying all or part of their expenses by working outside of school hours.

TRANSLYVANIA'S WORTH WIDELY RECOGNIZED

Transylvania College's diplomas are widely recognized. They are given full credit by the United States Bureau of Education, the General Education Board, Boards of Education of New York, Kentucky and other states.

GENERAL DUNCAN IS TRANSLYVANIA ALUMNUS

General George B. Duncan, who came to Kentucky during the holidays to visit his brother and other relatives at Lexington, and who made good with the First Division in France, is an alumnus of Transylvania College at Lexington. General Duncan is a son of the late former Mayor of Lexington, Henry T. Duncan, and won his way by his own merit from his college days to the time he won the right to wear a major general's uniform in the United States Army.

A Good Farm For Sale

200 acres of splendid land, located about 10 1-2 miles east of Lexington, in a good section of Fayette County. The fertility of the soil in this section is unequalled. Lots of blue grass sod and clover. Splendid tobacco land. Broad frontage on the pike. Comfortable frame dwelling of five rooms in good condition, two tobacco barns for about 12 to 14 acres, and all needed outbuildings. A portion of the farm is in good wheat and rye. Watered by never-failing springs. Price \$235 per acre, and is a good buy.

PREPARE NOW FOR CONSTRUCTION WORK

Some people are looking forward, even hopefully, for a business depression which would bring about lower wages, and therefore lower prices and a reduced cost of living. This is fundamentally a false position. Men who think that the way to safety and to prosperity is through panic and depression and low prices are absolutely without any understanding of the present conditions. Because panics and lack of employment in the past, throwing millions of people out of employment, have brought about lower wages and lower cost of living, is no reason whatever for looking for such things under present conditions. The world has completely changed. World inflation has cut the dollar in half, and no power on earth can alter this fact for many years to come.

Wages are high and justly so. They should continue high. Under present conditions the laboring man is entitled to high wages so long as he gives efficient service.

It is true that the changes which have come about have produced a certain intoxication of extravagance and waste on the part of men who are getting high wages. They are at the same time less efficient and energetic than they formerly were, but that is only the inevitable outcome of the mighty changes which are taking place in the financial, economic and social relations of wage-earners and all other interests.

The man who hesitates in carrying out construction work because of the high cost of doing work at the present time is making a mistake. He cannot get lower cost for years to come except through a business depression, which is not in sight, and which if it came would mean a desperate revolution, costing every business man and the country infinitely more than it now costs to go ahead as rapidly as materials and labor are available for all work.

The country needs 1,000,000 dwellings or more. They must be built or else the housing problems will in itself threaten revolution.

The railroads need to spend at least \$5,000,000, possibly double that sum, to create the transportation facilities needed. Failure to do so will bring about a complete breakdown of transportation and inability to handle coal, even when available, and much of the recent coal mining trouble has been due to the shortage of transportation.

When once railroad development is again under way and construction work for dwellings and hotels and office buildings has gotten well started, as it must do, the demand for labor and for materials will greatly exceed the supply.

The business men of Baltimore have been noted for many years for their ultra-conservatism; but today they are carrying on an account of building of dwellings, apartment houses, enormous manufacturing plants and warehouses, greater than ever before known in the history of the city, except in the rebuilding period after the big fire. Thousands of dwellings are under construction, many apartment-houses costing from \$100,000 to \$1,250,000, or more, are under way, vast manufacturing plants to employ thousands of hands are going up or contracts let for their construction. In this respect Baltimore is setting the nation an example which should be followed by the entire country. If the extreme conservatism of Baltimore business men justifies the vast building activities in that city, surely there is no other progressive town or city in the country in which the same forces for upbuilding should not be at work aggressively. —Manufacturers Record.

PIANOS TO BALANCE

In certain sections of the South, where the negroes have made more money than they ever dreamed of, the dusky brethren see nothing but

shine and roses. The rainy days, which in former times were ever in the preponderance, are so remote now that they cannot even be suspected.

It is this view taken by so many of the negroes, that aids the man with luxuries and useless articles in dis-

posing of them to the negroes for prices that yield enormous returns.

In one Arkansas district recently an industrious seller of pianos visited the negroes and placed instruments in homes that had never heard of a piano before the war. And so clever was

the salesman that, having sold one without exhausting his persuasive powers, he talked up the scheme and sold another, in order that, he said, "the room would be properly balanced by having an instrument on each side."

Another was selling a piano to a head of the house, but persuaded the negro that each member of the family ought to have a machine of his own.

The purchases of War Savings

stamps by such families at once showed how one as a rule would buy if the negroes now would lay up their surplus and invest in Treasury Savings Certificates they would have something that would help toward permanent prosperity.
